

The real ultimate cause of the war is militarism. The issue involved is as clear as the cause which brought it about—it is whether soldiers or citizens are to rule Europe.—Sir James M. Parrie.

GOVERNOR OF SONORA IGNORES CONVENTION'S ORDERS; TO CONTINUE FIGHT

COLONEL ROOSEVELT FAVORS CANDIDACY OF A DEMOCRAT

ERIE, Pa., Oct. 22.—Col. Theodore Roosevelt in a campaign speech here late yesterday endorsed the amalgamation of the Democratic and Washington parties of Pennsylvania, supporting Vance C. McCormick, a Democrat, for governor.

This was the first state in which the former president has given such an endorsement.

W. D. Lewis, of Washington (Progressive candidate), withdrew in favor of McCormick several weeks ago.

The colonel declared he wanted Gifford Pinchot elected senator from this state, and said that Pinchot would not withdraw in favor of Representative A. Mitchell Palmer, the Democratic candidate. He gave it as his opinion that Pinchot "is the only man that can beat Penrose."

Hears Nuns' Story

CHICAGO, Oct. 22.—Five nuns of the Sacred Heart, who were driven out of Mexico, after enduring insult and hardship, were visited by Col. Roosevelt Tuesday, although the news did not leak out until today.

The colonel listened with clenched teeth to the story of how the nuns and forty-three of their sisters were driven at the bayonet's point from their convent at Guadalajara and how they were crowded into a two-room hovel, where they lived on bread and water for six weeks and finally were rescued and brought to San Francisco on a tramp steamer. They lived in the hold near the steerage compartment set aside for Chinese passengers.

THE "DUKE'S" STORY IN RAILROAD MAGAZINE

A good story is told by Al D. Bensley of Yuma in the November issue of the Railroad Man's Magazine. It is "The Gold Mine Bo's Last Freight." It is the narrative of the death of a tramp in a bad orange train wreck six miles west of Yuma in the fall of 1911, when nineteen cars were smashed to kindling wood, and the right of way of the S. P. for about a hundred yards looked like all the orange trees in California had been struck by an earthquake.

Billy Meadows, the horse-trading knight of the throttle, was the engineer who jumped to save his life.

The "Bo" is buried in the Yuma potters field, and no one here ever knew his name. Many Yumaltes remember the wreck and the story was written and sent to the magazine at that time and was not used by the Railroad Man's Magazine until now—three years later.

A copy of the magazine can be secured at Shorey's.

There will be six reels of Indian warfare taken on the ground by actual participants. Five thousand soldiers and Indians take a part. These pictures are endorsed by the U. S. army, and Yuma is to be congratulated on securing them.

FROM LONG BEACH TO PHOENIX BY AUTO

E. U. Benedict and family of Long Beach Cal., who are making a trip by auto to Phoenix and other Arizona points in a small Ford automobile, attracted considerable attention this morning in front of the post office. The auto was snugly packed with a camping outfit and there was very little space in the car that was not used to good advantage. Mr. Benedict left Long Beach last Monday morning and had no trouble coming thru the Mammoth Wash and enjoyed the trip very much from Long Beach to Yuma. They expect to return to Long Beach in about seven months and see all there is in and around Phoenix. Mr. Benedict is a sheet metal worker. This trip is the result of a great many days planning.

'MICKY' M'GUIRE TO AVIATE AT THE FAIR

Mickey McGuire, the famous aviator who will appear at Phoenix, November 9th to 14th as the big feature of the Arizona State Fair, was born in County Mayo, Ireland, but came to this country at the age of twelve years. The name, "Mickey McGuire" is not a mere Irish nickname, but a genuine Christian and patronymic of the Green Isle, running back to the time of the four kings of Ireland, so that the sobriquet, "The Wild Irish Rose" comes to him honestly, and this amply proven by his genial conversation which is embellished by the Irish brogue.

HILL FEARS TREACHERY; OFFERS ARE NOT MADE IN GOOD FAITH

SAN FRANCISCO, Cal., Oct. 22.—A wireless message from Guaymas, Mexico, says that six hundred Yaqui Indians left that city Tuesday for Naco, Son., to reinforce Maytorena.

Orders Ignored

NACO, Ariz., Oct. 22.—Both the Villa and Carranza forces are now apparently acting in defiance of the Aguas Calientes convention.

Hill previously agreed to cease hostilities and act only on the defensive. Maytorena at first recognized the truce, but later he disregarded it and continued desultory attacks on the garrison.

Today Hill is reported by the Constitutional agent to have received word that the peace convention ordered

him to remain at Naco and Agua Prieta, where Col. Reynas, Maytorena's subordinate is besieging the garrison. It is also provided that Maytorena should retire 15 miles to the southward toward Cananea.

Hill replied, his agents say, that he will not consider such an arrangement, insisting the enemy will retire to Nogales. He gave as his reason: "I do not believe in the good faith of Maytorena nor in that of his commander, Gen. Villa."

The order from the convention is said to have been conveyed in a telegram from Hill's accredited representative there, Julio Madero. Madero is charged by Hill with misuse of his authority, voting against Carranza.

HILL WON'T RECOGNIZE PEACE COMMISSIONER

NACO, Ariz., Oct. 22.—With the arrival in Naco yesterday of Ramon Sosa, peace commissioner from Aguas Calientes, it became apparent again that attempts to reconcile the two chiefs of the war in Sonora state are fruitless and that the battles about Naco are to continue until one or the other has conquered. Hill immediately announced on the arrival of Sosa that he will not recognize that commissioner as he is a friend of Maytorena and further that he will refuse to recognize any commission or commission form of government which is disassociated with Carranza.

On the other hand Maytorena apparently recognized the order for an armistice yesterday and during the whole of the day consistently refrained from firing many shells. At no time were his troops active, though several times the outposts engaged the Hill men for short volley firing.

CONVENTION APPROVES VERA CRUZ EVACUATION

WASHINGTON, D. C., Oct. 22.—The Mexican national convention at Aguas Calientes approved an arrangement with American consul Silliman and Gen.

Aguillas for withdrawing the American troops from Vera Cruz.

General Carranza is expected to issue a proclamation giving guarantees to citizens of Vera Cruz who have served the United States.

GENERAL OREGON NOW WANTS A SAFER PLACE

EL PASO, Oct. 22.—General Oregon, head of the Carranza commission, presented a resolution to the Aguas Calientes convention asking guarantees of safety for delegates and requesting that the convention be now moved to a "safer place." This information was received today in an official message from Mexico City.

VILLA HAS 30,000 MEN NEAR AGUAS CALIENTES

SAN FRANCISCO, Oct. 22.—There is no doubt whatever that Villa with a good-sized army of perhaps 30,000 men, is encamped within an easy distance of Aguas Calientes, according to travelers arriving here, who say they saw the troops.

Villa himself sleeps in his clothes in the car on the siding at the station. In this town, it is said, Villa is really supreme and keeps good order. He has had several officers shot for brawling.

F. L. SELLEW AND RECLAMATION OFFICIALS ON INSPECTION TRIP

Project Engineer F. L. Sellw and party of reclamation officials from Washington, who are inspecting the Yuma project, left Yuma at 2 p. m. by a special train, for Somerton, and probably five miles further south toward the Mexican line. The government railroad through Yuma valley, being built on the levee in close proximity to the river, permits not only a splendid view of the valley, but of the mighty Colorado, and the trip is an interesting one.

F. L. Youtsey and R. C. Bowlsby, valley ranchers, are business visitors in town today.
